

Task 34

Write the following SQL commands (Do not use MySQL):

There is an imaginary table Workers (id. name, hireDate, profession).

WORKERS

ID	Name	HireDate	Profession
----	------	----------	------------

a)

Get all Testers from the Workers table, sort by hire date.

b)

Get the last 5 hired Testers from the Workers table.

a)

```
SELECT *  
FROM workers  
WHERE profession = tester  
ORDER BY HireDate;
```

b)

```
SELECT *  
FROM workers  
WHERE profession = tester  
ORDER BY hireDate DESC  
LIMIT 5;
```
